EXPERIENCE

GIFT OF LIFE MARROW REGISTRY

New Orleans, LA

Campus Ambassador Program (CAP) Intern

August 2026 – Present

- Selected through competitive application to lead campus donor recruitment for a national marrow and stem cell registry, with a mission to broaden HLA diversity across the donor pool.
- Plan, staff, and execute seven donor drives this semester, targeting 70 swabs per drive and logging all registrations through the organization's donor portal.
- Lead a Sickle Cell Awareness Month drive campaign, partnering with an established community 5K to recruit donors from groups underrepresented on the registry, where patients are less likely to find a match.
- Author a one-pager on barriers to registry diversity for Gift of Life digital channels and campus events; coordinate volunteer staffing with fellow campus ambassadors.

VERTEX PHARMACEUTICALS

Boston, MA

US Public Affairs Intern, Policy & Reimbursement Team

Summer 2026

- Built and maintained a 50-state tracker of "medically frail" exemption definitions under Medicaid work requirements, identifying which state criteria captured cystic fibrosis and sickle cell populations; adopted by Public Affairs to flag where coverage and therapy access were most at risk.
- Analyzed the CMS interim final rule on Medicaid work requirements and synthesized it into an executive briefing deck delivered to ~40 members of the US Public Affairs organization, including Director- and Vice President-level leadership.
- Authored a patient-facing one-pager and policy brief distributed to cystic fibrosis, sickle cell, and kidney disease advocacy organizations and shared with Vertex GPS (Guidance & Patient Support), translating eligibility criteria, required patient actions, and enforcement deadlines into plain language.
- Tracked ~500 state bills across the policy and reimbursement portfolio, logging each bill's status, Vertex's position (support, oppose, or monitor), and priority tier.
- Designed a scalable physician fellowship engagement framework for Market Development's Community Engagement Liaisons, defining fellow identification criteria and partnership structure retained by the team.

MASSACHUSETTS GENERAL HOSPITAL – MANSTEIN LAB

Boston, MA

Sammy Fisher Fellow, Dermatology Innovation Research Internship

Summer 2025

- Selected as one of four fellows for the competitive Sammy Fisher Memorial Fellowship, supporting translational research in dermatology and laser-based medical technologies.
- Organized clinical trial datasets across histological staining, laser prototype testing, and machine learning teams, structuring data to inform research decisions.
- Presented findings in weekly lab meetings, connecting technical results to patient experience and device adoption.

CANCER GENETICS RESEARCH

Concord, MA

Researcher

December 2021 – June 2022

- Conducted research investigating racial disparities in cancer treatment and genetics, analyzing correlations between healthcare access and treatment outcomes in minority populations.

LEADERSHIP & SERVICE
